Article Guidance

Article Text:

The information in this article contains billing, coding or other guidelines that complement the Local Coverage Determination (LCD) for the Retroperitoneal Ultrasound L34577.

A full (complete) or limited abdominal ultrasound (US) (CPT[®] 76700, 76705, 76706*), views all structures in the abdomen including those in the retroperitoneal area. Frequently when a retroperitoneal US is performed findings encountered during the exam may warrant that the exam be expanded to become a full abdominal study.

It is expected that CPT[®] 76770, 76775, 76776 will only be billed when the exam has been limited to retroperitoneal structures. Exams that include structures other than or in addition to, those listed above should be billed as a full (complete) or appropriately limited abdominal US (CPT[®] 76700, 76705, 76706*).

It is not appropriate to bill for both a retroperitoneal US study AND a complete (or limited) abdominal US when a retroperitoneal US study is expanded to include organs and structures outside the retroperitoneum.

Utilization Guidelines

If the physical exam has primary findings for the involvement of non-retroperitoneal structures/organs (gallbladder, liver, spleen, common bile duct, etc.), even though it may be necessary to visualize retroperitoneal structures in the course of the procedure, a full abdominal US would be required in most cases to be diagnostic, and that is the procedure that should be performed and billed.

Bill Type Codes:

Contractors may specify Bill Types to help providers identify those Bill Types typically used to report this service. Absence of a Bill Type does not guarantee that the policy does not apply to that Bill Type. Complete absence of all Bill Types indicates that coverage is not influenced by Bill Type and the policy should be assumed to apply equally to all claims.

Revenue Codes:

Contractors may specify Revenue Codes to help providers identify those Revenue Codes typically used to report this service. In most instances Revenue Codes are purely advisory. Unless specified in the policy, services reported under other Revenue Codes are equally subject to this coverage determination. Complete absence of all Revenue Codes indicates that coverage is not influenced by Revenue Code and the policy should be assumed to apply equally to all Revenue Codes.
